Dear Mr. Bush:

Solar Turbines Inc., Harbor Drive, San Diego (EPA ID No:
CAD008314908), -Fee for Service for Corrective Action.

This refers to the meeting we had in November 1994 at our office regarding a possibility of the Solar Turbines taking advantage of The Department of Toxic Substances Control's (DTSC) Fee for Service (FFS) program to review a corrective action work being carried out at your facility. This investigation work is being conducted under a guidance and overseeing authority of the California Regional Water Quality Control Board (RWQCB), San Diego Region 9.

The purpose of the DTSC's review of the corrective action at the Solar Turbines is to satisfy that the current investigation would comply with RCRA requirements and clean up levels would come up to the DTSC's performance standards.

On November 8, 1994, we had sent you a copy of draft model Corrective Action Order and a copy of FFS Agreement. Since then, I have requested, several times, Ms. Lisa K. Edwards, your staff member, by telephone, for the Solar Turbines' decision on the acceptance of joining the FFS program.

We are finalizing our resource allocation for the projects in our Annual Work Plan for the Fiscal Year (FY) 1995-96, starting July 1, 1995. Unless the Solar Turbines commits to join the FFS program immediately, we would not be able to allocate our resources to the Solar Turbine Corrective Action Project in FY 1995-96.

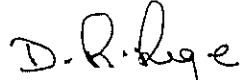

Mr. Robert Bush
